Portfolio :: Custom Stainless Steel

Custom Cabinets – Nashville, TN

DETAIL:

Constructed entirely from stainless steel, these cabinets can be solo or linked together. This cabinet was built to resemble residential kitchen cabinets with a toe-space, drawers, and adjustable shelves. The countertop, with a raised rounded edge has an integrated double bowl sink and a radius backsplash.

DETAIL:

Riveted side seams, rounded legs, and a stationary shelf give this cabinet a more industrial look.

DETAIL:

Designed to be freestanding this cabinet has triangular legs lifting it off the floor.
