## Portfolio :: Architectural Sheet Metal

East End Lofts – Nashville, TN

### ADDRESS:

926 Woodland Street,  
Nashville, TN 37206

### ARCHITECT:

Woodson Gilchrist Architects  
Nashville, TN

### GENERAL CONTRACTOR:

Construction Enterprises, Inc.  
Franklin, TN

### WALL SYSTEM:

Berridge 24 ga Zinc-Cote  
S-Deck wall panels

### WALL AREA PROFILE:

5,827 square feet  
New Construction

### PROJECT INFORMATION:

East End Lofts is an all new construction of a 4-story condominium building with multiple roof levels. Along with the wall panels, our company also installed shingles and single ply roofing. The top story patios have a single ply system covered by rubber pavers allowing residents to enjoy an outdoor space. The corrugated wall panels bring an urban style to the building.

### DETAIL:

The scope of work also included the gutter system and 24 ga. Kynar steel flashing, scuppers, rain heads, coping, and metal trim.
