

# Roofing and Sheet Metal RD Herbert & Sons

## Portfolio :: Architectural Sheet Metal

Harpeth Hall : Daugh W. Smith Middle School – Nashville, TN

### ADDRESS:

4104 Harding Road  
Nashville, TN 37210

### ROOF SYSTEM:

Copper 16-oz standing  
seam roof

### ROOF AREA PROFILE:

11,000 square feet  
Roof Replacement

### PROJECT INFORMATION:

Daugh W. Smith Middle School houses girls' studies for grades 5 to 8 along with the dining hall for the entire school. The two-story, 56,000 square-foot building encloses the main lawn and integrates the middle and upper schools.

### DETAIL:

We installed a new field fabricated standing seam copper roof. Our company also fabricated ten new standing seam copper domers and provided louver inserts. All the accompanying flashings are 16-oz copper including the chimney, wall, and valley flashings. The built in gutter and downspouts are also 16 oz copper.
