Donald Blair & Partners
Architects, LLP
New York, NY

GENERAL CONTRACTOR:

Turner Universal
Brentwood, TN

ROOF SYSTEM:

Soprema Mod-Bit 2-ply roof

ROOF AREA PROFILE:

33,600 square feet
Addition

PROJECT INFORMATION:

Medical Research Building IV sits atop Langford Auditorium and Light Hall and provides more than 200,000 square feet of research area, as well as conference space and a soaring glass atrium spanning several floors. Begun in 2004 and dedicated in June 2008, this building features state-of-the-art facilities with an appealing design that encourages collaboration and connects the structures.

DETAIL:

This large, complex, multi-story project included a temporary roof, due to job phasing, 2-Ply Mod-Bit roof system and stainless steel metal work.
