PROJECT INFORMATION:

Morgan Park Place is a new condominium community that is part of the revitalization of north Nashville. Designed as an eco-friendly community, these townhomes promote many options for people looking to minimize their impact on the environment. Metal roofing and wall panels are recyclable building materials and have a long life span.

DETAIL:

These four bungalows showcase the vibrancy and variety in panel color choices. Panel colors featured: Slate Grey, Colonial Red, Hunter Green, and Dark Bronze. The rest of the condominium exteriors are a blend of brick and Dark Bronze wall panels.
