Nashville Public Square – Nashville, TN

ADDRESS:

2nd Ave & Union Street
Nashville, TN 37203

ARCHITECT:

Tuck Hinton Architects
Nashville, TN

GENERAL CONTRACTOR:

Brasfield & Gorrie
Nashville, TN

ROOF SYSTEM:

Follansbee TCS II 28 ga stainless
steel flat lock roof

ROOF AREA PROFILE:

3,800 square feet
New Construction

PROJECT INFORMATION:

The 2006 transformation of the Nashville Metro Courthouse parking lot into a functional park created a true Public Square. Six new buildings flank the South, East and West entrances to the open space. The project also features several historically significant components from the original site including reused granite steps, historical war monuments and commemorative plaques (*Nashville Business Journal*).

DETAIL:

RD Herbert installed Follansbee teme-coated steel flat lock roof panels on six structures. Our metal work included new built-in gutters, downspouts, flashing, and edge metal.
