

Roofing and Sheet Metal RD Herbert & Sons

Portfolio :: Custom Stainless Steel

Railings – Nashville, TN

DETAIL:

The top, bottom, and post rails are formed from rounded stainless steel tubes with a mirrored finish. The center panels have a brushed finish and the segments are welded together.

DETAIL:

The hammered copper of this pedestal sink accentuates the exceptional qualities of the material and workmanship of RD Herbert & Sons. Additionally, a towel bar accents one side of the countertop and details the rounded front.

DETAIL:

The top, bottom, and post rails are formed from rounded stainless steel tubes with a mirrored finish. The center panels have a brushed finish with accents of painted black rails and mirror finished rectangles.

DETAIL:

Stainless steel newel post, hand polished to a mirror finish was installed in Ford Financial Building in Franklin, Tennessee.
